

Species List

ID	<i>Botanical and Common Name</i>	<i>Height x Width</i>	<i>Min R'Fall</i>	<i>Soils</i>	<i>Description</i>	<i>Uses</i>
1	Acacia acuminata JAM WATTLE	3-5 x 3-5	250	Loam	Small tree or shrub with a short trunk and wide crown. Fine long leaves with a curved tip. Drought, frost and lime resistant.	Shade, shelter, posts, sandalwood host, craft timber.
2	Acacia alata WINGED WATTLE	0.5-2.5 x 1-3	500	Sand,loam,clay	Small open shrub. Flat green phyloides. Cream to yellow flowers occur between April and December	Ornamental, soil stabilization, bushland reveg.
3	Acacia celastriifolia GLOWING WATTLE	2 - 4 x 2	500	Sand	Medium to tall shrub, slender stems, spreading branches. Broad leaves up to 6 cm long. Golden-yellow ball flowers in winter to spring.	Ornamental, shelter, windbreak, screen.
4	Acacia cyclops COASTAL WATTLE	4 x 4	500	Sand	Spreading medium shrub. Yellow flowers in summer. Wind resistant.	Windbreak, saline & waterlogged sites, revegetation.
5	Acacia dentifera TOOTHED WATTLE	1-3 x 1-2	600	Sandy loam, gravel, granite	Upright bushy shrub. Narrow light green foliage. Yellow ball flowers occur between August and November.	Wind break, soil stabilization.
6	Acacia extensa WIRY WATTLE	2 x 1	450	Laterite, damp sands	Erect shrub often with weeping habit. Light green narrow phyloides. Frost hardy. Yellow ball flowers occur in winter and spring.	Erosion control, ornamental, foliage.
7	Acacia myrtifolia WESTERN MYRTLE WATTLE	1-3 x 2	550	Sand, loam, clay.	An attractive small shrub. A profuse display of bright-yellow ball flowers in winter. Prefers semi-shaded, moist sites.	Ornamental, windbreak.
8	Acacia pulchella WESTERN PRICKLY MOSES	0.5-2 x 1-2	450	Sandy loam, gravel.	Small dense prickly shrub. Green to blue-green, fern-like foliage. Yellow ball flowers in spring.	Ornamental, soil stabilisation.
9	Acacia rostellifera SUMMER-SCENTED WATTLE	3-5 x 2-4	500	Sand, loam.	Small tree or tall shrub with mid-green narrow leaves. Bunches of yellow globular flowers in spring and early summer.	Coastal sand stabilisation, windbreak.
10	Acacia saligna GOLDEN WREATH WATTLE	3-10 x 3-6	550	Sand, loam, gravel.	Large shrub or small tree. Bluish or dark green broad long foliage. Large golden ball flowers appear winter to spring.	Ornamental, fodder, windbreak, land reclamation.
11	Agonis flexuosa WA PEPPERMINT	10 x 10	600	Sand, sandy loam.	Short trunk with dark rough furrowed bark and a spreading weeping crown. Attractive, small, white flowers in spring. Peppermint smell from crushed leaves.	Ornamental, shade, street planting, coastal.
12	Agonis linariifolia SWAMP PEPPERMINT	4 x 3	800	Loam, clay.	Fast growing, upright, bushy shrub with small, narrow, aromatic leaves and small white flowers in spring and summer. Tolerates some shade.	Ornamental, cut flowers, screen and windbreak.
13	Allocauarina fraseriana WA SHEOAK	10-15 x 5-10	600	Sand, gravel	Tall tree with narrow to medium crown and dense deep green, pine- like foliage. Distinctive trunk, often burnt out on one side.	Ornamental, windbreak, timber, fine timber uses.
14	Allocauarina heugliana Rock Sheoke	2-15 x 2-10	300	Granite, sand	Attractive tree. Dark grey bark and weeping needle-like foliage. Male trees flower in autumn.	Reveg., fodder, windbreak.

Species List

ID	<i>Botanical and Common Name</i>	<i>Height x Width</i>	<i>Min R'Fall</i>	<i>Soils</i>	<i>Description</i>	<i>Uses</i>
15	<i>Allocasuarina humilis</i> DWARF SHEOK	1-2 x 1	500	Sand, duplex, gravel	Small upright shrub with spreading habit. Brown/red flowers from May to November.	Revegetaion, windbreak, screening
16	<i>Angophora costata</i> SMOOTH-BARKED APPLE	15-20 x 6-12	600	Sand, gravel, clay loam	A medium-sized, graceful tree. Smooth, pink bark, irregular open crown and sturdy trunk. Clusters of creamy flowers in summer.	Ornamental, firewood.
17	<i>Anigozanthos viridis</i> RED KANGAROO PAW	0.1 - 0.9	700	Sand, loam, clay	Perennial herb, fine tubular stems, green flowers between August and October	Ornamental, cut flowers
18	<i>Anigozanthus flavidus</i> TALL KANGAROO PAW	1.5-2 x .5	700	Sand, sandy loam.	Hardy, vigorous, clumping plant. Yellow-green flowers carried on tall stem in spring. Sun or part shade. Tolerates damp conditions.	Ornamental, cut flowers.
19	<i>Anigozanthus manglessii</i> MANGLE'S KANGAROO PAW	1 x .5	600	Sand, sandy loam.	W.A's floral emblem. A clumping shrub with upright strap-like grey-green leaves. Red & green flowers are carried on a long stem in spring.	Ornamental, cut flowers.
20	<i>Aotus gracillima</i>	1-2 x 2	600	Sand, peat, clay	Upright slender shrub. Yellow-brown pea flowers appear in winter to spring. Important seasonal wetland reveg.	Wetland reveg. Ornamental.
21	<i>Astartea fascicularis</i>	1-3 x 1-2	400	Damp sand	Attractive small shrub. Short leaves clustered along stems. Small 5 petalled flowers white or pink in colour.	Cut flowers. Rehab.
22	<i>Atriplex nummularia</i> OLDMAN SALTBUH	1-3 x 1-4	350	Sand, loam, clay.	Medium spreading shrub, erect main stem. Irregular shaped silver-grey leaves.	Fodder shrub, salt tolerant, bush tucker.
23	<i>Banksia ashbyi</i> ASHBY'S BANKSIA	2-4 x 2-3	250	Sand, loam	Medium to large upright shrub. Long narrow pointed leaves, cylindrical vibrant orange flowers 10 to 15 cm long. Require open sunny area for best growth.	Cut flowers, ornamental, bird & insect attracting.
24	<i>Banksia attenuata</i> SANDPLAIN BANKSIA	4-12 x 3-8	350	Sand, sandy loam.	Small to medium sized tree, dark grey rough bark with a dense crown of long narrow serrated leaves. Long bright yellow flower spikes in spring and summer.	Ornamental, landscaping, rehab.
25	<i>Banksia baxteri</i> BIRD'S NEST BANKSIA	3 x 3-4	600	Sand, sandy loam.	A wide shrub with pale green leaves sharply divided almost to the midrib, with prickly lobes. The yellow/green dome shaped flower heads occur in spring/summer.	Ornamental, cut flower, rehab.
26	<i>Banksia coccinea</i> SCARLET BANKSIA	2-4 x 2-3	700	Sand, sandy loam, gravel.	A medium to tall shrub with several stems, broad leaves with prickly margins and spectacular scarlet flower spikes from winter to summer. Prefers moist well drained acid soils.	Ornamental, cut flower, rehab.
27	<i>Banksia formosa</i> SHOWY DRYANDRA	3-4 x 2	750	Sand, loam, gravel.	A bushy shrub with dense soft foliage. The leaves are long, narrow and serrated. The flowers are orange/ bronze in colour.	Ornamental, cut flower.
28	<i>Banksia gardneri</i> PROSTRATE BANKSIA	.2 x 1	700	Sand, gravel	A prostrate shrub with upright narrow serrated leaves and upright brown yellow flower spikes in spring.	Ornamental, rehab.

Species List

ID	<i>Botanical and Common Name</i>	<i>Height x Width</i>	<i>Min R'Fall</i>	<i>Soils</i>	<i>Description</i>	<i>Uses</i>
29	Banksia grandis BULL BANKSIA	4-8 x 3-5	600	Sand, gravel	A small tree with a distinct trunk, deeply serrated shiny green leaves and long upright yellow flower spikes in spring and early summer.	Ornamental, landscaping, bushland rehab.
30	Banksia hookeriana HOOKER'S BANKSIA	2-3 x 2-3	600	Sand	A shrub with dense foliage. Long narrow serrated leaves and golden orange acorn shaped flower spikes. Flowers from winter to summer.	Ornamental, cut flower, rehab.
31	Banksia ilicifolia HOLLY LEAVED BANKSIA	7-10 x 4	700	Wet sands	A medium erect tree, often crooked trunk, rough bark, prickly leaves. Flowers are lemon yellow turning to red with maturity in winter to spring.	Ornamental, revegetation species.
32	Banksia littoralis SWAMP BANKSIA	8-12 x 3-10	600	Damp sand.	A small tree with a short thick trunk and spreading crown. Long narrow leaves with small serrations and upright golden flower spikes.	Rehab. on coastal sandy swamps & wetlands.
33	Banksia menziesii FIREWOOD BANKSIA	8-12 x 4-8	400	Sand, sandy loam.	A twisted tree with spreading crown. Long, relatively broad leaves with small tooth like serrations. Attractive flower spikes silver tipped red, to golden red when open.	Ornamental, landscape, cut flower, rehab.
34	Banksia prionotes ORANGE BANKSIA	5-10 x 3-5	350	Sand	An attractive tree with long narrow saw-toothed leaves and acorn shaped bright orange flower spikes. Tolerates alkaline soils.	Ornamental, landscape, cut flower, coastal, rehab.
35	Banksia seminuda RIVER BANKSIA	2-20 x 3-8	900	Sand, granite, clay loam	Tall shapely tree or stunted shrub. Rough grey bark and bright green foliage. Long cylindrical flowers yellow to red in colour appearing in autumn to winter.	Ornamental, landscaping, cut flowers.
36	Banksia speciosa SHOWY BANKSIA	3-5 x 2-3	400	Sand	A large shrub with hairy white young branches and long shiny, dark green 'sawtooth' leaves. Large golden flower heads in summer.	Ornamental, landscaping, cut flower.
37	Beaufortia aestiva Kalbarri Beaufortia	0.7 x 2	400	Sand, sand over laterite	Dense rounded or spreading shrub. Attractive orange/red flowers.	Ornamental, bird attracting, soil stabilization.
38	Beaufortia sparsa SWAMP BOTTLEBRUSH	2-3 x 1-2	700	Sand, sandy loam, clay loam.	A spreading sparsely branched shrub with crowded small leaves and attractive large bright red flowers in summer and autumn.	Ornamental, landscaping.
39	Beaufortia squarossa Sand Beaufortia	0.5 x 2	400	Sand, limestone, laterite	Bushy shrub. Prolific red/orange flower set between January and May.	Ornamental, wildlife attracting, soil stabilization, windbreak
40	Callistemon citrinus CRIMSON BOTTLEBRUSH	2-8 x 2-6	400	Sand, loam, clay.	A shrub or small tree with bright red bottlebrush flowers and narrow pointed leaves and papery bark. Grows well in both well drained and waterlogged sites.	Ornamental, windbreak, coastal.
41	Callistemon glauca ALBANY BOTTLEBRUSH	2-4 x 3-5	600	Sandy loam.	A shrub with an erect stem and an open crown of long narrow green leaves. Dense cylindrical scarlet flower spikes up to 25cm long occur in spring.	Ornamental, windbreaks, waterlogged areas.
42	Callistemon phoeniceus LESSER BOTTLEBRUSH	3 x 1.5	350	Sand, loam, gravel, clay.	An upright shrub with grey green leaves and crimson red bottlebrush flowers in spring and summer. Tolerates damp conditions and wind.	Ornamental, windbreak.

Species List

<i>ID</i>	<i>Botanical and Common Name</i>	<i>Height x Width</i>	<i>Min R'Fall</i>	<i>Soils</i>	<i>Description</i>	<i>Uses</i>
43	Callistemon salignus WILLOW LEAFED BOTTLEBRUSH	8-10 x 4	500	Sand, loam, gravel, clay.	Shrub or small tree with dense, weeping foliage of shiny green leaves and soft immature leaves. Yellow flowers in spring. A good coastal tree.	Ornamental, windbreak, screen, semi saline sites, coastal.
44	Callistemon viminalis WEEPING BOTTLE BRUSH	10 x 5	500	Sand, loam, gravel.	A large shrub or small tree with rough furrowed bark and a weeping habit, narrow long leaves and bright red flowers in spring and summer.	Ornamental, windbreak.
45	Calothamnus lateralis	1-2.5 x 1-2	500	Sand, peat, loams	An erect slender open shrub. Green needle foliage, red flowers appear in spring to summer.	Wetland rehab. Ornamental.
46	Calothamnus quadrifidus CRIMSON NET BRUSH	2 x 2	500	Sand, loam, gravel.	A dense shrub with deep green pine like foliage, bright red flowers protrude from the branches from spring to summer.	Ornamental, landscape, low screen, some coastal exposure.
47	Calothamnus rupestris GRANITE NET BUSH	2 x 2-4	500	Sand, loam, gravel.	Similar to C. quadrifidus but with larger flowers.	Ornamental, landscape, low screen.
48	Calothamnus sanguineus BLOOD RED NET BUSH	0.5-3 x 1-3	700	Sand, loam.	A low shrub with an erect stem, spreading branches and an open crown. Silky pine-like foliage with sharp tips. Bright red feathery claw flowers appearing spring to summer.	Ornamental, windbreak, coastal planting, reveg.
49	Casuarina cunninghamiana RIVER OAK	10-25x10-15	500	Sandy loam, gravel.	A medium to large tree with slightly drooping pine-like foliage. Fire retardant.	Ornamental, fodder, landscaping, fine wood uses, shade, wind break.
50	Casuarina equisetifolia COASTAL SHEOAK	5-10 x 3-5	700	Sand, sand over clay, clay-loam.	Medium to tall graceful tree. Brownish-grey fibrous bark. Branches have distinct weeping habit.	Coastal dune protection, shade, timber.
51	Casuarina obesa SWAMP SHEOAK	6-20 x 4-18	350	Sand, loam, clay, gravel.	A small to medium tree with a slightly drooping habit. Deep-green, pine-like foliage. Fire retardant.	Ornamental, shade, shelter, waterlogged, saline sites.
52	Chamaecytisus palmensis TAGASASTE, TREE LUCERNE	4-10 x 3-5	400	Sand, loam.	A small shrub to small rounded tree with spreading branches and short trunk. Pale green leaves. White pea-like flowers in spring. Nitrogen fixing. Fire retardant.	Ornamental, sand stabilisation, windbreak, shelterbelt, fodder tree.
53	Corymbia calophylla MARRI, REDGUM	15-20 x 10-15	500	Sand, loam, gravel.	Thick rough bark, spreading crown & shiny smooth dark leaves. Mass of cream flowers in summer. Characteristic "gum nuts".	Shade, shelter, timber, rehab.
54	Corymbia calophylla rosea PINK FLOWERED MARRI	8-20 x 12	500	Sand, loam, gravel	Medium to tall spreading tree. Rough flaky bark, dark green glossy leaves. Pink flowers in summer.	Ornamental, shade, timber.
55	Corymbia citriodora LEMON SCENTED GUM	15-40 x 5-20	650	Sand, loam, gravel.	A medium to tall tree with a long smooth white-grey trunk and spreading drooping crown of long narrow lemon scented leaves. White flowers winter to spring.	Ornamental, parks and large gardens, shade, timber.
56	Corymbia exima YELLOW BLOODWOOD	12 x 6	550	Sand, sandy loam	Small to medium spreading tree. Flaky brown bark. Dieback resistant. Attractive creamy white flowers in winter and spring.	Ornamental, windbreak, honey, firewood.

Species List

ID	<i>Botanical and Common Name</i>	<i>Height x Width</i>	<i>Min R'Fall</i>	<i>Soils</i>	<i>Description</i>	<i>Uses</i>
57	<i>Corymbia ficifolia</i> RED FLOWERING GUM	5-15 x 3-5	850	Sand, loam, gravel.	Small to medium tree with rough grey brown bark and a dense crown with broad dark green leaves. Flowers summer to autumn, colour varies from tree to tree, ranges from bright pink to red to orange.	Ornamental, shade, windbreak.
58	<i>Corymbia maculata</i> SPOTTED GUM	45 x 15	550	Sand, loam, gravel, clay loam.	Tall, very straight trunk, light creamy bark with grey blotches, dark green glossy leaves and white flowers in dense clusters from winter to spring.	Shade, windbreaks, sawlog timber, firewood, poles.
59	<i>Corymbia ptychocarpa</i> SWAMP BLOODWOOD	5-15 x 3-8	600	Sand, clay, loam	Small to medium tree. Solid trunk with spreading branches and large leathery leaves. Spectacular white, pink or red flowers occurring in autumn.	Landscaping, ornamental
60	<i>Eucalyptus accedens</i> POWDERBARK WANDOO	8-20 x 4-15	700	Clay, loam, gravel.	A medium tree with a distinct smooth powdery white bark and a spreading crown with long blue green leaves. Green white flowers in summer.	Ornamental, shade, shelter, timber.
61	<i>Eucalyptus astringens</i> BROWN MALLET	10-20 x 4-10	500	Loam, gravel.	Long slender trunk with smooth light brown bark and a dense crown. The leaves are dark glossy green and curved. The yellow flowers appear in spring.	Shelter, windbreak, timber, tool handles.
62	<i>Eucalyptus botryoides</i> BANGALAY	12-30 x 5-15	650	Sand, loam, clay.	Distinct trunk with rough fibrous bark. A spreading crown with dark green glossy leaves. Cream flowers appear in summer.	Shade, shelter, damp sites, high rainfall areas, timber.
63	<i>Eucalyptus caesia</i> ssp <i>magna</i> SILVER PRINCESS	8 x 3-6	350	Sand, loam.	Often multi stemmed with red flaky bark, sparse spreading crown, blue grey, long, narrow leaves and powdery white fruits and buds. Pink and red flowers in spring.	Ornamental.
64	<i>Eucalyptus camaldulensis</i> RIVER RED GUM (SILVERTON & WA provenances)	15-50x15-30	250	Sand, loam, clay.	Generally a short, thick trunked tree with a heavy crown although some forms are more upright with a longer trunk. Leaves are grey-blue green. White flowers appear in summer.	Shade, shelter, saline & waterlogged sites, firewood, fence posts, timber.
65	<i>Eucalyptus cinerea</i> ARGYLE APPLE	8-12 x 4-8	800	Sand, loam	Small tree with a short trunk and a compact crown. Distinctive blue-grey leaves. Yellow to white flowers.	Ornamental, cut foliage.
66	<i>Eucalyptus cladocalyx</i> SUGAR GUM	15-20 x 5-10	350	Sand, loam, clay.	A medium tree with smooth patchy, yellowish bark. Has an erect crown and small white flowers in summer. High and low rainfall.	Ornamental, farm shade, shelter, timber, firewood.
67	<i>Eucalyptus cladocalyx nana</i> DWARF SUGAR GUM	8-10 x 5-10	350	Sand, loam, clay.	Smaller form of <i>E. cladocalyx</i> with crooked branches and trunk.	Ornamental shade, shelter, firewood.
68	<i>Eucalyptus conferminata</i> BALD ISLAND MARLOCK	6-10 x 6-10	500	Sand, loam.	Small tree, trunk usually branching at ground level forming a dense spreading crown. Smooth greyish-brown bark and broad leaves. Yellow-green flowers in autumn/winter.	Shade, shelter, windbreak, coastal.
69	<i>Eucalyptus cornuta</i> HILL YATE	5-25 x 5-10	500	Sand, loam, clay.	An erect tree, pale grey rough bark and spreading crown. Yellow flowers in summer.	Shade, shelter.
70	<i>Eucalyptus decipiens</i> REDHEART	3-10 x 3-5	350	Sand, loam.	Multi stemmed small tree. Pale green leaves in a spreading crown. Creamy white flowers appear in spring and summer.	Windbreak, turnery.

Species List

ID	<i>Botanical and Common Name</i>	<i>Height x Width</i>	<i>Min R'Fall</i>	<i>Soils</i>	<i>Description</i>	<i>Uses</i>
71	<i>Eucalyptus diversicolor</i> KARRI	30-60 x 10-15	900	Sandy loam.	Tall tree with smooth multi-coloured bark and a narrow crown. Creamy yellow flowers appear in summer.	Timber, reveg.
72	<i>Eucalyptus erythrocorys</i> ILLYARRIE	3-10 x 3-6	500	Sand, sandy loam.	Small tree with smooth white bark and sparse straggly crown with light green leaves. The flower buds are bright red and flowers are bright yellow.	Ornamental, coastal.
73	<i>Eucalyptus forrestiana</i> FUSCHIA GUM	3-5 x 3-5	350	Sand, loam.	Multi stemmed shrub with smooth grey brown bark and slightly weeping crown of dark leaves. Red fuchsia shaped bud caps and yellow flowers summer to autumn.	Ornamental, windbreak.
74	<i>Eucalyptus globulus</i> TASMANIAN BLUE	15-50 x 6-15	600	Loam, sand/gravel	Tall tree with smooth creamy grey brown bark shedding in strips and an erect crown. White flowers from spring to summer. Needs friable soils and adequate water.	Ornamental, timber pulpwood, posts, shade, shelter.
75	<i>Eucalyptus gomphocephala</i> TUART	10-40 x 5-15	600	Sand, clay, sandy loam, loam.	Tall tree with rough light to dark grey bark and an erect crown with dark green leaves. Yellow flowers in autumn.	Ornamental, parks, shade, timber, coastal.
76	<i>Eucalyptus grandis</i> ROSE GUM	20-60 x 10-15	800	Loam, sand, gravel.	Tall tree with a trunk of white bark above a base of rough grey bark. An erect open crown.	Ornamental, parks, timber, shade.
77	<i>Eucalyptus gunnii</i> CIDER GUM	25 x 7	800	Sand, loam, clay.	A medium tree with smooth grey green bark and a spreading crown of grey green rounded leaves. White flowers appear in summer. Frost hardy.	Cut foliage, ornamental, shade.
78	<i>Eucalyptus kochi</i> ssp <i>plenissima</i> OIL MALLEE	2-5 x 3-5	350	Sand, loam.	Usually multi stemmed with rough grey brown bark and an erect crown. Summer flowers range from white to green.	Shelter, windbreak, eucalyptus oil.
79	<i>Eucalyptus kondininensis</i> KONDININ BLACKBUTT	8-15 x 5-10	300	Loam, clay.	A tree with smooth grey bark above a stocking of rough black bark and a spreading crown of glossy leaves. Cream white flowers appear in spring and summer.	Shade, shelter, saline sites.
80	<i>Eucalyptus kruseana</i> BOOK LEAF MALLEE	3-5 x 2-4	250	Sand, loam.	A shrub with an erect stem and straggly crown. Grey-brown bark and blue-grey leaves. Yellow flowers in autumn.	Ornamental, cut foliage.
81	<i>Eucalyptus laeliae</i> DARLING RANGE GHOST GUM	10-18 x 8-12	800	Sand, clay, gravel.	A tree with powdery bark, white to yellow in colour and a spreading canopy. White flowers appear in summer.	Ornamental, shade.
82	<i>Eucalyptus lane-poolei</i> SALMON BARK WANDOO	12 x 5	600	Sand	A tree with an erect but twisting and branched trunk of salmon orange to white powdery bark. Medium green narrow, long leaves and orange bud caps followed by white flowers from winter to summer.	Ornamental, shade, shelter, honey.
83	<i>Eucalyptus leucoxylo</i> ssp <i>megalocarpa</i> RED FLOWERED YELLOW GUM	4-9 x 5-10	400	Sandy loam.	Variable form, ranges from a short compact tree to a medium tree with an erect trunk. Smooth yellow bark. Deep pink flowers from autumn to winter.	Ornamental, windbreak, firewood, coastal.
84	<i>Eucalyptus leucoxylo</i> ssp <i>pruinosa</i> (<i>rosea</i>) PINK FLOWERED YELLOW GUM	8 x 6	400	Sandy loam.	A smaller form of <i>E. leucoxylo</i> with a more open form. Flowers ranging from light pink to crimson in autumn and winter.	Ornamental, windbreak.

Species List

ID	<i>Botanical and Common Name</i>	<i>Height x Width</i>	<i>Min R'Fall</i>	<i>Soils</i>	<i>Description</i>	<i>Uses</i>
85	<i>Eucalyptus loxophleba</i> ssp <i>lissophloia</i> NORTHERN MALLEE YORK GUM	6-8 x 4-6	250	Sand, loam, clay.	Small multi stemmed tree with smooth coppery coloured bark and a branching canopy. Glossy foliage and white flowers appearing spring summer.	Windbreak, shade, shelter, semi saline sites, eucalyptus oil.
86	<i>Eucalyptus loxophleba</i> ssp <i>loxophleba</i> YORK GUM	6-18 x 5-12	300	Sand, loam, clay.	Small to medium tree. Rough fibrous bark over all or part of the stems, some forms have smooth bark on upper trunk and stems. Glossy leaves and white flowers spring summer.	Shade, shelter, semi saline sites, windbreak, fine wood uses.
87	<i>Eucalyptus macrocarpa</i> MOTTLECAH	4 x 8	350	Sand, loam.	Small tree or shrub with sprawling habit. Powdery white branches with silvery blue leaves. Large crimson red flowers with yellow tips. Largest nut of all the eucalypts.	Ornamental, windbreak, cut flowers.
88	<i>Eucalyptus marginata</i> JARRAH	10-35 x 6-25	600	Sand, loam, gravel.	Varies from a small stunted tree to a tree with a large straight trunk and open spreading canopy. Brown grey fibrous bark, dark green leaves, creamy white flowers spring summer.	Shade, structural timber, fine wood uses, poles, firewood.
89	<i>Eucalyptus megacarpa</i> BULLICH	4-30 x 2-10	750	Sandy loam, clay, granite.	Varies from a small to medium tree in coastal locations to a large tree in the forest. White flowers in the late summer to early autumn.	Ornamental, shade
90	<i>Eucalyptus nicholli</i> PEPPERMINT LEAVED GUM	8-12 x 5-12	600	Sand, loam, clay, gravel.	A neat compact tree. Rough fibrous grey bark and fine green to blue leaves, peppermint scented when crushed. Creamy white flowers in autumn.	Ornamental, shade, shelter, windbreak.
91	<i>Eucalyptus occidentalis</i> FLAT TOPPED YATE	15-25 x 8-12	350	Clay, loam, sandy loam.	A medium tree with a straight trunk and spreading canopy. Rough grey bark on trunk and branches, clean bark on upper branches. Cream yellow flowers in autumn & winter.	Shade, shelter, waterlogged & saline sites.
92	<i>Eucalyptus patens</i> SWAN RIVER BLACKBUTT	25-45 x 15-25	800	Sandy loam, loam	Medium to tall tree with open spreading canopy. Rough fibrous dark grey bark. Blue green leaves. White flowers from spring to summer.	Shade, shelter, sawlog timber, flooring, fine timber uses.
93	<i>Eucalyptus perriniana</i> SPINNING GUM	4-7 x 4	600	Sandy loam, clay loam.	A small tree with unusual juvenile foliage which grows around the stem. Blue green leaves and white flowers in summer autumn.	Ornamental, shade, shelter, windbreak, cut foliage.
94	<i>Eucalyptus platypus</i> var <i>heterophylla</i> COASTAL MOORT	4-8 x 5-7	350	Sand, loam, clay loam.	Small tree, spreading limbs from a short trunk. Thick grey green rounded leaves. Yellow flowers occurring in spring summer.	Ornamental, windbreak, coastal.
95	<i>Eucalyptus platypus</i> var. <i>platypus</i> INLAND MOORT	4-8 x 5-8	350	Sand, loam, clay loam.	Small tree with dense rounded crown branching near ground level. Thick oval shaped leaves. Smooth brown bark sheds in ribbons. Yellow flowers appear spring/summer.	Ornamental, shelter, windbreak.
96	<i>Eucalyptus pulverulenta</i> SILVER LEAVED MOUNTAIN GUM	6-8 x 2-5	800	Sand, loam, clay loam.	A medium tree with a trunk of smooth red-brown bark and silver coloured heart shaped leaves. Cream flowers occur in spring.	Ornamental, shade, cut foliage.
97	<i>Eucalyptus rhodantha</i> ROSE MALLEE	1-3 x 2	400	Sand, gravel, loam	Low spreading tree. Large silvery heart shaped leaves surround stems. Pointed bud caps, large red flowers with yellow anthers occur through out the year.	Ornamental, cut flowers and foliage.
98	<i>Eucalyptus robusta</i> SWAMP MAHOGONY	20-30 x 10-20	800	Sand, loam, clay.	A medium tree with an erect trunk with deeply furrowed fibrous dark-brown bark, crown of large dark-green glossy leaves and orange bud caps and white flowers in autumn.	Shade, shelter, waterlogged sites, poles, coastal.

Species List

<i>ID</i>	<i>Botanical and Common Name</i>	<i>Height x Width</i>	<i>Min R'Fall</i>	<i>Soils</i>	<i>Description</i>	<i>Uses</i>
99	<i>Eucalyptus rudis</i> FLOODED GUM	10-20 x 5-10	500	Sand, loam, clay.	Medium tree with a short trunk of rough grey bark and spreading branches with dark leaves. White flowers in spring.	Shade, shelter, waterlogged, saline sites, firewood.
100	<i>Eucalyptus saligna</i> SYDNEY BLUE GUM	20-50 x 10-20	750	Sand, loam.	A tall erect tree with rough peeling bark at base and smoother grey bark above. Dense crown. White flowers in summer to autumn.	Ornamental, shade, timber.
101	<i>Eucalyptus salmonophloia</i> SALMON GUM	10-30 x 10-20	250	Loam, clay.	An erect tree with smooth bark ranging from pale grey to salmon pink and a spreading crown of glossy green leaves. Orange bud caps with white flowers in spring summer.	Ornamental, shade, craft timber.
102	<i>Eucalyptus salubris</i> GIMLET	5-20 x 5-10	250	Loam, clay.	An erect tree with a fluted trunk of smooth deep-brown bark and an open crown of glossy dark green leaves. White flowers from summer to autumn.	Ornamental, shade, poles, semi saline sites.
103	<i>Eucalyptus sargentii</i> SALT RIVER GUM	6-12 x 5-10	350	Sand, sandy loam, loam.	Small tree with a short trunk of rough dark-grey bark and a spreading crown of glossy dark-green leaves. White flowers in spring.	Ornamental, shade, shelter, windbreak, waterlogged, saline sites.
104	<i>Eucalyptus sideroxylon rosea</i> RED FLOWERED IRONBARK	10-30 x 5-15	450	Sand, loam, clay, gravel.	An erect trunk of furrowed dark brown to black bark and weeping spreading branches with an open crown of grey green leaves. Red pink flowers occur winter to summer.	Ornamental, shade, timber, coastal.
105	<i>Eucalyptus spathulata</i> SWAMP MALLET	5-10 x 4-8	300	Sand, loam, loamy clay.	Erect tree, usually branching close to the ground, with smooth red brown bark and long narrow grey green leaves. White flowers from spring to summer.	Ornamental, landscaping, windbreak, waterlogged, saline
106	<i>Eucalyptus stoatei</i> SCARLET PEAR GUM	4-6 x 3	450	Sand, gravel, clay loam	An erect, slender small tree. Smooth grey bark, attractive red pear shaped buds. Yellow flowers occur in summer.	Ornamental, cut foliage
107	<i>Eucalyptus tetragona</i> TALLERACK	2-8 x 3-6	400	Sand.	An erect spreading shrub or tree with smooth pale grey to yellow bark. Has a dense crown with whitish branchlets, leaves and nuts. White flowers occur in summer.	Ornamental, windbreak, shelter, cut foliage.
108	<i>Eucalyptus todtiana</i> PRICKLY BARK	4-15 x 3-6	450	Sand, duplex	A small tree or mallee. Rough grey to yellowish bark, creamy white flowers appear from summer to autumn.	Shade, shelter, soil stabilization.
109	<i>Eucalyptus torquata</i> CORAL GUM	6-12 x 3-8	250	Sand, loam.	Erect small tree with rough to smooth grey bark and a spreading dense crown of grey green leaves. Attractive bright red buds and flowers in summer.	Ornamental, shade, shelter, semi saline sites, coastal.
110	<i>Eucalyptus victrix</i> "SNOW QUEEN" COOLIBAH	10-15 x 8-12	200	Sand, loam.	An erect tree with contorted trunk and powdery white bark. Has a spreading crown of blue green to grey green leaves. White flowers in summer.	Ornamental, landscaping, shade, shelter.
111	<i>Eucalyptus wandoo</i> WHITE GUM	8-30 x 6-15	400	Sand, loam, loamy clay, gravel.	Erect tree with smooth white to yellow bark and an open crown of pale green leaves. Cream flowers from summer to autumn.	Shade, shelter, timber, poles, fence posts.
112	<i>Ficinia nodosa</i> KNOTTED CLUB RUSH	1 x 0.8	500	Sand, sand over clay, granite, limestone.	Erect perennial sedge. Light green cylindrical stems with clumping habit. Tolerates seasonal water logging. Brown to cream flowers between spring and summer.	Stabilization of coastal dunes and wet lands.

Species List

ID	<i>Botanical and Common Name</i>	<i>Height x Width</i>	<i>Min R'Fall</i>	<i>Soils</i>	<i>Description</i>	<i>Uses</i>
113	Grevillea robusta SILKY OAK	20-35 x 5	600	Loam.	A hardy fast growing tree with large deeply divided dark green leaves and bright orangey-yellow flower clusters in spring summer.	Ornamental, shade, timber.
114	Hakea bucculenta RED POKERS	3 x 3	300	Sand, gravel.	A large dense rounded shrub with erect long narrow leaves. Spectacular red or bright orange flower spikes over an extended period in winter and spring. Nectar producing.	Ornamental, screen, windbreak, wildlife habitat.
115	Hakea corymbosa CAULIFLOWER HAKEA	2 x 2	550	Sand, gravel, loam	Medium very dense and spiny shrub. Creamy-yellow flowers appear in winter to spring. Bird and native insect attracting.	Soil stabilization, wildlife habitat, windbreak, ornamental.
116	Hakea francisiana PINK SPIKE HAKEA	4 x 2-4	300	Sand, loam, gravel.	An erect sparsely branched shrub with long flat linear leaves up to 17cm long. Very attractive bright pink flowers spikes with an extended flowering time in winter & spring.	Ornamental, screen, honey, wildlife habitat.
117	Hakea laurina PINCUSHION HAKEA	4-6 x 3-4	300	Sand, loam, clay, gravel.	A tall dense shrub. White and deep red pincushion-like flowers in autumn/winter. Spectacular flowers. Nectar producing. Leaves used for floral art.	Ornamental, shade, shelter, street tree, bird attracting, honey.
118	Hakea multiineata GRASS-LEAFED HAKEA	3-4 x 3	250	Sand, loam, gravel.	An erect shrub with smooth bark and long narrow leaves. Spectacular and colorful bright pink to red flowers in spring. Nectar producing.	Ornamental, windbreak, wildlife habitat.
119	Hakea petiolaris SEA URCHIN HAKEA	2 x 1-2	300	Sand, loam, gravel.	A tall erect shrub with short, broad, stiff grey-green leaves. Purple and cream pincushion-like flowers in autumn/winter. Flowers are plentiful and nectar producing.	Ornamental, screen, bird attracting, floral art.
120	Hakea prostrata HARSH HAKEA	3 x 1.5	300	Sand, loam.	A large shrub with stiff blue-green leaves. Sweetly scented, plentiful clusters of white or creamy white flowers in late winter & spring.	Ornamental, screen, windbreak, reveg.
121	Hakea ruscifolia CANDLE HAKEA	1.5-3 x 3	500	Sand, gravel	Small to medium open erect or spreading shrub. Thick prickly leaves, tightly whorled on stems. White flowers appear between December and January.	Reveg., ornamental, screening, wildlife habitat.
122	Hakea trifurcata TWO LEAFED HAKEA	1.5-3 x 3	350	Moist and, loam, gravel, limestone	Small to medium bushy shrub. Mature shrubs have needle and flat leaves whilst immature shrubs have only needle leaves. Strongly scented white or pink flowers occur between April and October.	Reveg., honey, bird attracting.
123	Hakea varia VARIABLE LEAFED HAKEA	1-4 x 1.5-4	700	Sand, loam, clay.	Medium shrub with a prickly dense spreading canopy. Considerable variation in leaf shape and texture. Abundant showy white or yellow flowers with strong sweet scent in winter & spring.	Windbreak, screen, wetland revegetation, wildlife habitat.
124	Hardenbergia comptoniana NATIVE WISTERIA		800	Sand, loam, gravel.	A vigorous twining climber with dark green leaves. Spectacular clusters of purple pea flowers in spring.	Ornamental, screen.
125	Jacksonia sternbergiana STINKWOOD	2-7 x 1.5-3	500	Sand, sandy loam	Erect leafless shrub or small tree. Blue-grey foliage often with weeping habit. Yellow to orange pea flowers occur year round.	Important food source for insects and birds. Bush regeneration.
126	Juncus kraussii SHORE RUSH	.6-1.5 x .5-1.5	500	Sand, loam, clay, peat.	A clumping rush that is highly tolerant of saline waterlogged conditions.	Nutrient stripping, soil stabilisation, wildlife habitat, saline waterlogged sites.

Species List

ID	<i>Botanical and Common Name</i>	<i>Height x Width</i>	<i>Min R'Fall</i>	<i>Soils</i>	<i>Description</i>	<i>Uses</i>
127	<i>Juncus pallidus</i> PALE RUSH	0.5-2 x 0.3-1	450	Sand, loam, clay, peat.	Fast growing freshwater rush. Tolerant of seasonal waterlogging. Pale green hollow stems with light brown seed heads.	Nutrient stripping, soil stabilising, wildlife habitat.
128	<i>Juncus pauciflorus</i> LOOSE FLOWER RUSH	0.3-1 x 0.3	450	Clay, sand over clay	Deep green cylindrical stemmed rush. September - October flowering followed by brown seed heads. Colonises freshwater swamplands, creeks and river banks.	Soil stabilisation, wildlife habitat, nutrient stripping.
129	<i>Juncus subsecundus</i> FINGER RUSH	0.5-1 x 0.5-1	450	Wet sands, clay	Clumping sedge. Slender leafless stems. Tolerates seasonal waterlogging.	Nutrient stripping, soil binding, landscaping.
130	<i>Kennedia coccinea</i> CORAL CREEPER		500	Sand, loam, gravel.	A vigorous hardy vine with dark green rounded leaflets and orange-red to scarlet pea flowers in spring.	Ornamental, soil stabilisation.
131	<i>Kennedia prostrata</i> RUNNING POSTMAN	.1 x 1.5	300	Sand, loam, gravel.	A spreading twining vine with pale green leaves and scarlet pea shaped flowers in spring.	Ornamental, soil stabilisation.
132	<i>Kunzea baxteri</i> SCARLET KUNZEA	3 x 3	500	Sand, loam, gravel.	A bushy shrub with a dense crown of small narrow deep green leaves. Striking deep red bottlebrush-like flowers winter to spring.	Ornamental, screen, windbreak.
133	<i>Kunzea ericifolia</i> SPEARWOOD	3-6 x 2-3	700	Sand, loam.	An erect shrub, often multi-stemmed, with rough grey bark and a crown of pale green soft foliage. Has globular clusters of perfumed yellow flowers in spring.	Sand stabilisation, winter waterlogged sites, wooden stakes.
134	<i>Kunzea recurva</i> MAUVE KUNZEA	2 x 1.5	750	Sand.	Compact shrub with small stem-hugging, pointed leaves. Attractive mauve globular flowers in spring.	Ornamental, screen, reveg., sand.
135	<i>Melaleuca armillaris</i> BRACELET HONEY MYRTLE	7 x 5	600	Sandy loam, loamy clay.	Large shrub or small bushy tree with dark green soft foliage and white bottlebrush type flowers. Tolerates wet conditions and coastal exposure.	Windbreaks, hedges, ornamental.
136	<i>Melaleuca brevífolia</i> MALLEE HONEY MYRTLE	2-5 x 1.5-4	500	Sand, loam, clay.	A dense bushy tree. Dark rough bark and creamy flowers appearing in spring to early summer. Grows well in waterlogged clays, moderately salt tolerant.	Wind break, screening, salt land reclamation
137	<i>Melaleuca cuticularis</i> SALTWATER PAPERBARK	6-10 x 3-4	400	Sand, loam, clay.	A tall shrub or tree with a distinct trunk of white papery bark and a narrow crown of twisted branches and fine leaves. Creamy-white flowers in spring/summer.	Shelter, windbreak, waterlogged, saline sites.
138	<i>Melaleuca densa</i> LEMON HONEY MYRTLE	1-2 x 1.5-2	500	Sand, loam, clay.	A dense, spreading bushy shrub with dark green leaves and profuse pale lemon flowers in spring.	Ornamental, screen, windbreak.
139	<i>Melaleuca fulgens</i> SCARLET HONEY MYRTLE	1-3 x 1-2	200	Sand, loam, gravel.	A small to medium erect shrub with grey-green foliage. Large, showy, scarlet to apricot flowers in spring.	Ornamental, screen, windbreak, bird attracting.
140	<i>Melaleuca hamulosa</i> CREEKLINE HONEY MYRTLE	3-4 x 3	300	Sand, loam, clay.	A medium dense broom-like shrub with fine leaves and white to faintly pinkish mauve flowers in spring.	Ornamental, screen, windbreak, saline, waterlogged sites.

Species List

<i>ID</i>	<i>Botanical and Common Name</i>	<i>Height x Width</i>	<i>Min R'Fall</i>	<i>Soils</i>	<i>Description</i>	<i>Uses</i>
141	Melaleuca heugelii CHENILLE HONEY MYRTLE	1-4 x 1-3	400	Sand, clay loam, limestone.	A spreading or erect shrub with tiny leaves and showy white flowers in early summer.	Ornamental, screen, windbreak, alkaline sites, coastal.
142	Melaleuca incana GREY HONEY MYRTLE	2-3 x 2	600	Sand, clay loam.	A medium shrub with soft, weeping, grey-green foliage and white to yellow flowers in spring.	Ornamental, screen, hedge, windbreak.
143	Melaleuca lateritia ROBIN RED BREAST	2 x 2	500	Sand, loam, loamy clay.	A medium sized erect shrub with small narrow leaves and intense orange-scarlet bottlebrush flowers in spring and autumn.	Ornamental, screen, bird attracting, winter wet sites.
144	Melaleuca leucadendra BROADLEAVED PAPERBARK	20-30 x 5	650	Sand, loam, clay.	A medium to large tree with an erect trunk of papery bark and a weeping crown of broad stiff leaves. Cream or white flowers in spring. Bird & bee attracting.	Ornamental, shade, shelter, windbreak, timber, saline, waterlogged sites.
145	Melaleuca linariifolia SNOW IN SUMMER	6-10 x 4-5	600	Sandy loam, clay loam.	A large shrub or small tree with white papery bark and a dense crown of narrow leaves. Snow-white flowers cover the plant in spring/summer.	Ornamental, screen, windbreak, shelter, alkaline sites, winter wet sites.
146	Melaleuca megacephala	0.5 x 3m	350	Sand, limestone	Bushy medium shrub, yellow terminal flowers appear between August and October	Ornamental, screening/hedging, bird attracting
147	Melaleuca nesophila SHOWY HONEY MYRTLE	3-5 x 3-5	500	Sand, loam, clay.	A large, bushy, erect shrub with small broad stiff pale green leaves and a mass of purplish pink, pom-pom flowers in late spring & summer.	Ornamental, windbreak, screen, hedge.
148	Melaleuca pauciflora MATTRESS MYRTLE	0.5-1.5 x 1-15	600	Clay, sand over clay	Dense bushy shrub, white creamy flowers appear in summer to autumn.	Wetlands, swamps, rivers and estuaries.
149	Melaleuca preissiana MOONAH, PREISS'S PAPERBARK	5-10 x 3-6	700	Sand, loam, clay.	A small to medium tree with thick whitish papery bark and a bushy crown of small fine deep green leaves. Cream or white flowers, spring to autumn.	Ornamental, waterlogged sites, shade and shelter.
150	Melaleuca quinquenervia BROAD LEAVED PAPERBARK	8-20 x 8	700	Sand, loam, clay loam.	A small to medium tree with papery bark and thick flat leaves. Cream or white bottlebrush flowers appear in spring summer.	Ornamental, shade, shelter, waterlogged sites.
151	Melaleuca radula GRACEFUL HONEY MYRTLE	1-2 x 1-2	400	Sand, clay, loam.	An erect shrub with a dense crown of small fine pale green leaves. Pale pink, mauve or violet fluffy flowers appear in spring.	Ornamental, soil stabilisation
152	Melaleuca raphiophylla SWAMP PAPERBARK	7-10 x 4-6	600	Sand, loam, clay.	A bushy, rounded tree or large shrub. Short trunk with papery white bark and fine needle-like leaves. Profuse white to cream flowers in spring & summer.	Windbreak, screen, shelter, winter waterlogged sites.
153	Melaleuca scabra ROUGH HONEY MYRTLE	1 x 1	600	Sand, loam.	A small shrub with multiple stems, thin pointed leaves and numerous clusters of deep pink flowers in spring.	Ornamental, screen, windbreak.
154	Melaleuca teretifolia MARSH HONEY MYRTLE	3 x 2	700	Sand, loam, clay.	An erect branching shrub with 5cm long needle-like leaves. White, sometimes yellow, pink or mauve flowers in spring summer.	Wetland planting.

Species List

<i>ID</i>	<i>Botanical and Common Name</i>	<i>Height x Width</i>	<i>Min R'Fall</i>	<i>Soils</i>	<i>Description</i>	<i>Uses</i>
155	Melaleuca thymoides SAND WATTLE	1 x 1	600	Sand.	A small shrub with small leaves. Profuse bright daffodil yellow flowers in spring.	Ornamental, sand stabilisation, coastal.
156	Melaleuca uncinata BROOMBUSH	1-3 x 1-3	250	Sand, loam.	A broom-like shrub with narrow leaves with hooked tips. Cream to yellow flowers appear in spring.	Windbreak, screen, hedge, brush fences.
157	Melaleuca viminea MOHAN	3-5 x 3	400	Sand, loam, clay.	A large, bushy shrub with an erect smooth stem and bright-green, narrow, erect leaves. White, perfumed, globular flowers in spring.	Ornamental, windbreaks, wetland.
158	Mirbelia dilatata HOLLY-LEAVED MIRBELIA	0.5-3 x 0.5 - 2	400	Sand, sandy loam, gravel, peat	An erect bushy shrub with blue-green leaves. Pink to purple pea flowers appear between September and January. Prefers wet sandy conditions in part shade to full sun. Moderately frost tolerant.	Screen, windbreak, ornamental.
159	Parasienianthes lapantha NATIVE ALBIZIA	3-15 x 2-8	600	Sand, loam, granite	Large upright shrub or medium tree. Dark green fern like foliage, smooth bark, green-yellow flowers in autumn, winter and spring.	Rehab., wildlife habitat.
160	Pericalymma ellipticum Swamp Tea Tree	3 x 2	650	Sand, clay, laterite	Erect shrub, white - pink flowers appear in spring to early summer	Bird and insect attracting, revegetation, soil stasbilization
161	Pinus pinaster MARITIME PINE	20-35 x 4-8	500	Sand, loam.	Hardy timber tree. Branching trunk, spreading crown, rough furrowed bark, curved needle like leaves, oval shaped cones.	Timber, windbreak.
162	Pinus pinea ITALIAN STONE PINE	6-20 x 4-15	450	Sand, gravel, clay.	Attractive medium sized tree. Younger trees- stout trunk, bushy form. Mature trees - straight trunked, dense, flat umbrella-shaped crown. Mature leaves - greyish-green with sharp points.	Edible nuts, shade/shelter, ornamental.
163	Pinus radiata MONTEREY PINE	20-40 x 2-4	600	Sand, sandy loam.	Fast growing tall tree with erect trunk and deeply furrowed bark. Dark green needle leaves 10-15 cm long. Important timber species prefers cool temperate climate.	Timber, windbreak, honey, sand stabilization.
164	Regelia ciliata	3 x 2	500	Sand, winter wet depressions	Erect and bushy shrub, Pink/purple flowers in spring and summer	Ornamental, wildlife attracting, revegetation, soil stabilization
165	Viminaria juncea SWISHBUSH, NATIVE BROOM	2.5-5 x 2-3	600	Sand, loam, limestone, clay.	A large erect shrub with an open weeping crown of long fine rush-like foliage. Light yellow to gold pea flowers appear in spring and early summer.	Ornamental, screen, waterlogged sites.
166	Xylomelon occidentale WOODY PEAR	6-8 x 5	500	Sand, sandy loam.	A small tree with dull to bright green toothed leaves, masses of creamy white flowers in summer and pear shaped fruit.	Ornamental, shade, shelter, cut foliage.
